

Trader or Gambler ?

CURRENT MARKETS

Forex and futures are the main day trading markets. All are great markets, and one isn't necessarily better than another. Based on personal circumstance and interests though, one market may appeal to you more. It is recommended to focus on one market before learning others, as you will find that you can fine-tune your day trading strategies to each market

90% of Traders

“ fail” is the most commonly used trading related statistic around the internet. But no research paper exists that proves this number right.

DON'T BREAK YOUR RULES

**5-10 % PERCENT OF
TRADER WINNING
ONLY**

Profit Trader properties

SKILLS

- Know thy self
- Trade the right time of day
- Trade products which suits to personality
- Trade max 4-6 Hours per day

KEY FEATURE

- Risk Management
- Money Management

Risk Management

WHY USING RISK MANAGEMENT SOFTWARE

Fail to respect risk % and position sizing and you will have a short lived trading career.

TIPS

Before you trade, decide how much you're going to risk per trade, per day.

How much are you willing to risk on each and every trade, how large of a loss am I willing to take on any single day or week, and how much of a loss will I accept before reassessing my trading system and plan.
